#### 1 General information

#### 1.1 Corporate information and purpose of the Company

The purpose of CeramTec Holding GmbH (hereinafter "CeramTec Holding") is to render management services as well as administrative, financial and business services in return for remuneration to entities in which it has a direct or indirect controlling shareholding or to entities that are controlled by the same ultimate controlling shareholder. It establishes branch offices, legal entities and other operations in Germany and abroad and acquires, invests in and holds these investments and/or manages them as well as enters into and/or issues various financial instruments.

The subsidiaries of CeramTec Holding are global leaders in the development, production and sale of assemblies, components and parts made from high performance ceramic materials. The Companies' work closely with customers to develop and supply high performance ceramics products, efficiently, at scale, in compliance with all relevant industry standards. High performance ceramics are highly specialized materials that offer superior mechanical, electrical, thermal and biochemical properties compared to alternatives such as metals or organic polymers. Due to their unique material properties, high performance ceramics products are used in mission-critical applications across all areas of human activity and across technology sectors, including orthopedic implants, medical equipment, automotive, aerospace and defence, electronics, industrial machinery and other.

CeramTec Holding's registered office is located at CeramTec-Platz 1-9 in 73207 Plochingen, Germany. CeramTec Holding is the parent company of the Group ("CeramTec Holding Group") and at the same time the ultimate parent.

The management of CeramTec Holding approved the interim condensed consolidated financial statements for the period ended 30 September 2017 on 10 November 2017.

#### 1.2 Basis of preparation

The interim condensed consolidated financial statements are prepared in accordance with IAS 34 Interim Financial Reporting. These interim condensed consolidated financial statements do not include all of the information and disclosures required in the annual financial statements, and should be read in conjunction with the CeramTec Holding GmbH's annual consolidated financial statements as of 31 December 2016.

The interim condensed consolidated financial statements give a true and fair view of the results of operations and financial position of the CeramTec Holding Group.

The interim condensed consolidated financial statements are presented in Euro. The amounts are in thousands of euros (EUR k). All amounts are rounded using standard commercial principles. In some cases, adding single values to the total values may therefore lead to differences.

For the purpose of clarity, various items in the statement of financial position and statement of comprehensive income were combined and explained accordingly in the selected explanatory notes to the financial statements. Assets and liabilities are broken down into current and non-current items. Assets and liabilities are classified as current if they are expected to be realized or settled within twelve months from the reporting date. The expense recognized in profit or loss is presented according to the cost of sales method. In the statement of cash flows, cash flow from operating activities is determined using the indirect method, while cash flow from investing and financing activities is determined using the direct method.

#### 1.3 Changes to the consolidated group

In accordance with the purchase agreement signed on 21 February 2017 CeramTec UK Ltd., Colyton, UK, acquired assets, net of liabilities, of the UK electro-ceramics business from Morgan Advanced Materials plc., Stourport-on-Severn, UK effective on 3 April 2017 (transfer of ownership). We paid a total cash consideration of EUR 55,485k in April and June 2017. The business acquisition was accounted for using the acquisition method.

The UK electro-ceramics business, comprising two manufacturing sites, is a manufacturer of highly specialised piezoelectric and dielectric components that enhance the reliability and performance of customers' products in the most technically challenging applications. The business is focused on the Lead Zirconate Titanate and dielectric market and has the widest range of products available for polycrystalline piezo and dielectric applications across core target markets.

The combined and complementary piezo-ceramic businesses of UK electro-ceramics business and CeramTec creates a new international leader in piezo and electrical ceramics with an even stronger and more resilient business for the future.

The preliminary fair values of the acquired assets, net of liabilities were as follows:

|   | Fair Value<br>EUR k |
|---|---------------------|
|   | 40.000              |
| Patents and other intellectual property | 18,020              |

| Deferred tax liability                  | 59                  |
| Other provisions and liabilities        | 558                 |
| Trade payables                          | 1,926               |
| Liabilities                             | 2,543               |
|   |                     |
| Total net                               | 39,387              |
| Total consideration transferred         | 55,485              |
| Goodwill from the acquisition           | 16,098              |

The fair value of purchased receivables equals the gross amount of contractual receivables as we believe the receivables can be fully recovered.

Goodwill reflects the value of the future earnings to be realized over the next few years. In addition, the consideration paid for the aforementioned UK electro-ceramics business, included amounts in relation to benefit or expected synergies, revenue growth and future market developments. These benefits are not recognised separately from goodwill because they do not meet the recognition criteria of identifiable intangible assets.

The costs associated with the acquisition amounted to EUR 1,328k. These are recognized in the consolidated statement of comprehensive income under the item "other income and expenses (-), net".

Included in the revenue and net profit for the period are EUR 14,304k and EUR 1,911k, net of acquisition costs. Had this acquisition been effective at 1 January 2017, the revenue and net profit for the year would have been increased by EUR 20,712k, and EUR 2,774k, respectively.

The acquisition is recognized on a preliminary basis as of the reporting date. As a result the purchase price allocation and the identification and measurement of the acquired assets and liabilities has not yet been concluded.

#### 2 Accounting principles and policies

The accounting policies and the consolidation principles applied in the interim condensed consolidated financial statements correspond to those applied in the most recent annual consolidated financial statements with the exception of the recently adopted accounting standards, if any. A detailed description of the accounting principles and policies is shown in the notes to the consolidated financial statements as of and for the year ended 31 December 2016.

<sup>&</sup>lt;sup>1</sup> HfT: held for trading; LaR: loans and receivables; FVtPL: measured at fair value through profit or loss; FLAC: financial liabilities measured at amortized cost; hedge: hedge accounting

If the fair value is not available in the form of a market price, it is calculated based on different valuation parameters. Depending on the availability of observable parameters and the significance of these parameters when calculating the fair value, the fair value is allocated to level 1, 2 or 3 of the fair value hierarchy. The allocation is based on the following factors:

- **Level 1:** Quoted (unadjusted) market prices in active markets for identical assets or liabilities for the Company on the measurement date
- **Level 2:** Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3: Non-observable measurement parameters for the asset or liability

The following table shows the fair value hierarchy for derivative financial instruments that are recognized at fair value in the consolidated financial statements:

The following table shows the fair value hierarchy for the financial instruments that are not recognized at fair value in the interim condensed consolidated financial statements. It does not include the fair values for financial instruments such as short-term trade receivables and other financial assets as well as trade payables and other financial liabilities as their carrying amounts are a reasonable approximation of fair values:

The fair value of the publicly listed bond corresponds to the nominal value multiplied by the market value at the reporting date. Accordingly, the fair value measurement is allocated to level 1 in the fair value hierarchy.

Liabilities to banks are subject to interest based on the interest rates observable on the market, such as EURIBOR or LIBOR, on the basis of which the fair value is calculated. Accordingly, these are allocated to level 2 of the fair value hierarchy.

The fair values of the separated derivatives are measured using the Black-Scholes/Hull-White valuation model, which considers both the observable yield curves and the fluctuation (volatility) of the currencies concerned. All key input parameters were directly or indirectly derived from observable market data. The fair value measurement is therefore allocated to level 2 in the fair value hierarchy.

Currency swaps are measured on the basis of a discounted cash flow method, which takes into account the observable mid closing rates, yield curves and currency spreads between currencies. All currency swaps had a positive market value as of the end of the reporting period. All key input parameters were directly or indirectly derived from observable market data. The fair value measurement of the currency swaps is therefore allocated to level 2 in the fair value hierarchy.

The fair value of the interest rate cap is measured using the Black-Scholes/Hull-White valuation model, which considers both the observable yield curves and the fluctuation (volatility) of the currencies concerned. All key input parameters were directly or indirectly derived from observable market data. The fair value measurement is therefore allocated to level 2 in the fair value hierarchy.

The fair value of all other financial instruments is calculated using a discounted cash flow method as well as by taking into account measurement parameters that are observable for the assets and liabilities, either directly or indirectly at the market. Accordingly, these financial instruments were allocated to level 2 in the fair value hierarchy.

For assets and liabilities that are recognized at fair value in the interim condensed consolidated financial statements on a recurring basis, the CeramTec Holding Group assesses whether a transfer between the levels of the fair value hierarchy took place as of the end of each reporting period (based on the lowest level that is significant to fair value measurement as a whole). There were no transfers between level 1 and 2 during the reporting period.

#### 5 Additional notes to the interim condensed consolidated statement of cash flows

In the interim condensed consolidated statement of cash flows, cash flow from operating activities is determined using the indirect method, while cash flow from investing and financing activities is determined using the direct method. The cash and cash equivalents presented in the statement of cash flows correspond to the item of the interim condensed consolidated statement of financial position and comprise cash in hand, bank balances and cash investments with an original term of up to three months.

Other non-cash income and expenses primarily contain changes in the fair value of financial instruments and foreign exchange gains or losses.

An amount of EUR 11,688k of trade receivable was sold to PB Factoring GmbH according to the factoring agreement signed end of June 2017. The receipt of the proceeds from the factor was treated as an operating cash flow.

The cash flow from investing activities includes the purchase price payment of EUR 55,485k for assets, net of liabilities, of the UK electro-ceramics business (please refer to 1.3). No cash and cash equivalents were taken over.

During the period 1 January to 30 September 2017, CeramTec Holding Group purchased property, plant and equipment valued at EUR 1,201k (1 January to 30 September 2016: EUR 646k) on account; therefor, are not included in cash flows from investing activities.

During the period 1 January to 30 September 2017, CeramTec Holding Group paid EUR 2,003k (1 January to 30 September 2016: EUR 3,145k) for property, plant and equipment previously purchased on account, which was not included in the statement of cash flows in previous reporting periods as it was a non-cash transaction.

During the reporting period no government grants were recognized.

#### 6 Other notes

#### 6.1 Contingent liabilities

Consistent with comparative period, there were no material contingent liabilities as of 30 September 2017. The entities within the consolidated group are involved as parties in a number of lawsuits. These proceedings are linked to business activities and mainly relate to commercial, product liability and environmental litigations. The group accrues for such obligations if a liability is probable to arise and the amount of the potential claim can be sufficiently estimated. Where claims and obligations arising are not considered probable nor remote, such contingent liabilities are disclosed separately in the consolidated financial statements.

On 4 January 2017 and 10 July 2017 partial payments of EUR 105,452k (thereof loan repayment of EUR 97,620k and interest payments of EUR 7.832k) were made. The loan is not secured.

Interest expenses of EUR 5,263k was accrued in the reporting period ended 30 September 2017 (1 July to 30 September 2017: EUR 1,203k; 1 January to 30 September 2016: EUR 8,765k, 1 July to 30 September 2016: EUR 2,992k). Unpaid interest is added annually to the Company's loan balance as of 29 August.

CeramTec Service GmbH closed a Service Agreement with Faenza Luxembourg S.à.r.l., Luxembourg on 10 March 2014. Expenses for services of EUR 395k were booked during the reporting period ended

30 September 2017 (1 July to 30 September 2017: EUR 130k; 1 January to 30 September 2016: EUR 382k; 1 July to 30 September 2016: EUR 138k). The unpaid amount of EUR 125k (31 December 2016: EUR 205k) is shown as trade payables to affiliates.

In the fiscal year, no transaction costs were charged by CeramTec Holding Group to Faenza Luxembourg S.à.r.l. (1 July to 30 September 2017: EUR 0k; 1 January to 30 September 2016: EUR 48k; 1 July to 30 September 2016: EUR 0k). There were no payments made by Faenza Luxembourg S.à.r.l in the reporting period (1 July to 30 September 2017: EUR 0k; 1 January to 30 September 2016: EUR 796k; 1 July to 30 September 2016: EUR 0k).

#### **6.3** Subsequent events

On 11 October 2017 CeramTec announced that a consortium led by funds advised by leading private equity firm BC Partner, had reached an agreement to acquire CeramTec Group from its current owner Cinven. The Public Sector Pension Investment Board and Ontario Teachers' Pension Plan both hold a stake in the consortium. The acquisition is subject to approval by anti-trust and foreign investment authorities.

#### 7 Reconciliation to CeramTec Group GmbH

If the interim condensed consolidated statement of comprehensive income of CeramTec Group GmbH had been prepared instead of the interim condensed consolidated statement of comprehensive income of CeramTec Holding, which is presented in these financial statements, this would have resulted in the following changes for the reporting period:

- lower general administrative expenses of EUR 191k (1 July to 30 September 2017: EUR 71k; 1 January to 30 September 2016: EUR 175k, 1 July to 30 September 2016: EUR 64k)
- higher interest income and other finance income of EUR 7,324k (1 July to 30 September 2017: EUR 2,553k; 1 January to 30 September 2016: EUR 6,748k, 1 July to 30 September 2016: EUR 2,339k)
- lower interest expenses and other finance costs of EUR 4,531k (1 July to 30 September 2017: EUR 861k; 1 January to 30 September 2016: EUR 8,762k, 1 July to 30 September 2016: EUR 2,991k)
- higher tax expenses of EUR 39k (1 July to 30 September 2017: EUR 14k; 1 January to 30 September 2016: EUR 36k, 1 July to 30 September 2016: EUR 14k)

The total comprehensive income of CeramTec Group GmbH would therefore have been EUR 12,007k higher (1 July to 30 September 2017: EUR 3,471k 4; 1 January to 30 September 2016: EUR 15,649k higher, 1 July to 30 September 2016: EUR 5,380k higher) compared to the total comprehensive income recognized in these financial statements.

If the interim condensed consolidated statement of financial position of CeramTec Group GmbH had been prepared instead of the interim condensed consolidated statement of financial position of CeramTec Holding, which is presented in these financial statements, this would have resulted in the following changes as of 30 September 2017 (31 December 2016):

- higher financial receivables to affiliates of EUR 131,482k (31 December 2016: EUR 19,273k)
- lower financial liabilities to affiliates of EUR 54,234k (31 December 2016: EUR 154,423k)
- lower financial liabilities to third parties of EUR 101k (31 December 2016: EUR 22k)
- lower trade payables of EUR 0k (31 December 2016: EUR 53k)
- higher income tax payables of EUR 515k (31 December 2016: EUR 476k)

This would have resulted in a EUR 185,302k (31 December 2016: EUR 173,295k) 4group equity for the CeramTec Group GmbH compared to the group equity recognized in these financial statements.

There would have been no significant impact on the interim condensed consolidated statement of cash flows if the interim condensed consolidated statement of cash flows of CeramTec Group GmbH had been prepared instead of the interim condensed consolidated statement of cash flows of CeramTec Holding presented in these financial statements.
